

# ABSTRACT

## Empowering Change Through Cryptocurrency

DONTCOIN (also known as Donation Coin or DONT) introduces a bold new model in the world of cryptocurrency: Donate-To-Earn.

This approach fuses the speculative power of memecoins with real-world social impact.

zWith every transaction, a portion of the value flows directly into a Donation Treasury Wallet, which funds vetted charitable organizations worldwide.

Unlike conventional projects driven by hype alone, DONTCOIN empowers holders to grow their investment while actively contributing to global causes. In doing so,

it transforms giving into a shared, decentralized, and rewarding experience.
